

AAH Foundation Research Grant Application

2021

The AAH Foundation Research Grant aims to support research that enhances the capacity of architects to increase their effectiveness in designing healthcare architecture and environments for health.

The mission of the Academy of Architecture for Health Foundation is to support the Academy of Architecture for Health and to enhance the knowledge and effectiveness of those who create healthcare environments through the funding of critical educational and research activities. As such, the AAHF works in collaboration with the American Institute of Architects Academy of Architecture for Health to offer the grants program.

Please write your application to contain the sections outlined in this document. The Application Cover Sheet (section I), Budget (section V), Timeline (section VI), and Application Requirement Checklist (section X) can be extracted from this document as fillable forms. For additional details on the AAHF grant and application, see the “AAH Foundation Research Grant Applications Guideline 2021”. Incomplete applications may be excluded from consideration.

(if applicable): \$

Tentative/anticipated
match (if applicable): \$

Total research
budget \$

II. ABSTRACT

Please provide an abstract that provides an overview of your research proposal and contains the following sections. Maximum of 350 words.)

Rationale

Research Question(s)

Method

Specific Aim(s)

Significance

III. RESEARCH PROPOSAL

Please provide a brief narrative outlining your proposed research that includes the following sections. Be sure to address the project's anticipated outcomes and potential application to the practice of healthcare or the creation of healthcare environments. Add figures and tables as needed. Include endnotes plus a bibliography formatted in Vancouver style. (Maximum of 2,500 words, excluding bibliography.)

Background

Purpose

Research Methods

Expected Outcomes

Significance

Practical Implications

Dissemination Plan

IV. RESEARCHER QUALIFICATIONS

Please provide a brief narrative for principal and co- investigators. List any potential conflicts of interest that may exist. If no conflict exists, please state that, 'The investigator declares that there is no conflict of interest.' (Maximum of 150 words per investigator).

Attach a resume of a maximum of two pages for each investigator.

Name

Role

Researcher Qualifications

V. BUDGET

RESEARCH TITLE:							
PRINCIPAL INVESTIGATOR:				TELEPHONE:			
NAME OF INSTITUTION(S):				EMAIL:			
PROJECT PERIOD:				FAX:			
A. SALARIES AND FRINGE BENEFITS (calculate salaries by using either BILL RATE or % of FTE)							
FIRST AND LAST NAME	TITLE	TOTAL HOURS OR % FTE	RATE	TOTAL WAGES	TOTAL FRINGE	AAHF FUNDS	OTHER FUND SOURCES
TOTAL							
B. CONTRACT SERVICES AND SUBCONTRACTORS (if applicable)							
ITEM	DESCRIPTION			TOTAL COST	AAHF FUNDS	OTHER FUNDS	
TOTAL							
C. OTHER DIRECT EXPENSES							
TRAVEL EXPENSES	DESCRIPTION			TOTAL COST	AAHF FUNDS	OTHER FUNDS	
TOTAL							

D. EQUIPMENT AND SUPPLIES				
ITEM	DESCRIPTION	TOTAL COST	AAHF FUNDS	OTHER FUNDS
TOTAL				
E. OTHER DIRECT PROJECT EXPENSES				
ITEM	DESCRIPTION	TOTAL COST	AAHF FUNDS	OTHER FUNDS
TOTAL				
TOTAL				
TOTAL DIRECT COSTS = A + B + C + D + E				

VII. RESOURCES & ENVIRONMENT

FACILITIES & OTHER RESOURCES

Identify the facilities to be used (e.g., clinical, computer, office, simulation lab, existing datasets). If appropriate, indicate their capacities, pertinent capabilities, relative proximity, and extent of availability to the project. Describe only those resources that are directly applicable to the proposed work. This information is used to assess the capability of the organizational resources available to perform or support the effort proposed.

OTHER SUPPORT

Provide any letters of support or institutional commitment for the research project. Describe any additional collaborators, consultants or training that will be a part of the research proposal and include supplementary documentation as needed.

VIII. ETHICS

Designate if human subjects are involved, and if so, whether the proposed activities meet the criteria for exemption. Applications that involve human subjects must include a 'Protection of Human Subjects Section' that addresses the points noted below. Applications that are not proposing human subjects research but will use human data or biological specimens must provide a justification for the claim of no involvement of human subjects.

Requirements and Responsibilities. Research proposals that propose to involve human subjects must address:

1. the risk to subjects
2. the adequacy of protections against risk
3. potential benefits of the research to subjects and others
4. the importance of the knowledge to be gained
5. For clinical trials, data and safety monitoring plan and a data and safety monitoring board for Phase III trials

IX. BIBLIOGRAPHY

Please provide a bibliography in Vancouver format.

X. APPLICATION REQUIREMENTS CHECKLIST

(Please include the completed Application Requirements Checklist with application materials submission)
